

American Cancer Society Survivorship Care Guidelines Mobile Application

What:

The goal of the ACS Survivorship Care Guidelines App is to help ensure optimal clinical follow-up care of adult post-treatment cancer survivors by providing easy access to the ACS Cancer Survivorship Care Guidelines. The ACS Cancer Survivorship Care Guidelines address the cancer survivorship care needs of breast (female only), colorectal, head & neck, and prostate (male only) cancer survivors.

Why:

The ACS has developed evidence- and consensus-based cancer survivorship guidelines to help primary care and other clinicians provide high-quality, comprehensive, coordinated clinical follow-up care to adult post-treatment cancer survivors to promote optimal health and quality of life.

Who:

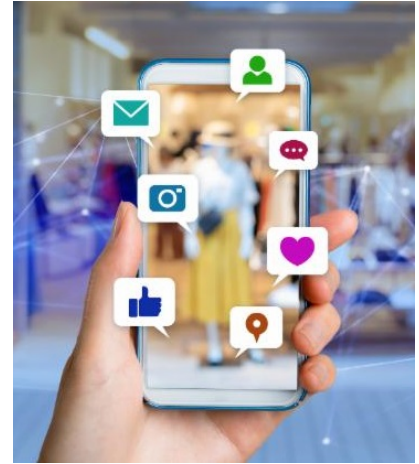

The ACS Survivorship Care Guidelines App was developed to assist medical providers in clinical decision making for adult post-treatment cancer survivors.

Medical providers can use the ACS Survivorship Care Guidelines App to:

- Tailor survivor's care recommendations
 - Learn more about recommendations, including background on why the recommendation is important, assessment and management strategies, and links to resources
- Email tailored recommendations to themselves or other office medical providers who participate in the care of the cancer survivor
- Email links to resources to patients or caregivers

How does it work?

1. Enter the type of cancer, years post treatment, sex, and age of the survivor whose care you are participating in, and click on “Find Recommendations”
2. Based on the survivor’s information, the application will generate a number of recommendations in the following categories: surveillance for recurrence, screening for new cancers, managing symptoms, promoting healthy lifestyle & coordinating care
3. Learn more about the each recommendation by clicking on the “Details” button next to the recommendation
4. Email tailored recommendations to providers or patients and caregivers by clicking the “Email” button next to recommendations
 - a. When you click on “Email Resources” you can chose the audience of the email and type a message to the recipient
