

Improve Your Practice's HPV Vaccination Rates

Do you see patients ages 9 through 45 years?

Quality Insights is offering - at **NO COST** to your practice - access to **2 podcasts** discussing practice involvement in the Delaware Department of Public Health and Quality Insights HPV initiative.

- ✓ Hear from an engaged physician
- ✓ Learn about the experiences from a large health system

Access both podcasts here:

- [Dr. Bryan Villar, MD – Bayhealth Primary Care, Georgetown](#)
- [Ashley Istenes, BSN, Ambulatory Payment Program Coordinator – Bayhealth Medical Group](#)

If you would like more information about the HPV vaccination initiative, please contact Sarah Toborowski at **800.642.8686, Ext. 130** or via email at stoborowski@qualityinsights.org.

This project is in collaboration with the Division of Public Health (DPH) – Comprehensive Cancer Control Program, Immunization and Vaccines for Children, and the Centers for Disease Control and Prevention (CDC). Publication number DEDPH-HPV-063020
